Once you have added the Share to Classroom App extension to your Google Apps, you can use the Classroom share button——on websites to add content from the website to an assignment or an announcement in Classroom.

To share material from a website to Classroom:

1. On the website, click  on the left side of your browser bar.
2. Sign in with your Google Apps for Education account.
If your account does not appear, click **Add account** and sign in with your Google Apps for Education account.
3. (Optional) Click **Remove** to remove an account.
4. Click **Choose class** and select the class to share to.
If you haven't created any classes, you get an error message. Click **Go to Classroom**.
5. Click **Choose action** and select one of the following:
 - Create assignment.
 - Make an announcement.
6. Click **Go**.
7. Create your assignment (see [Create an assignment](#)), or enter your announcement (see [Post an announcement](#)).
8. Click **Post**.
9. (Optional) Click **View** to view the announcement or assignment in the class stream.
