

# Installing Google Cloud Printer

1. Open Google Chrome and copy and paste the following link to visit the page  
Apps the Work with Google Cloud Print  
<http://www.google.com/cloudprint/learn/apps.html>
2. Scroll down to Google Cloud Printer for Windows. It is in the section “On Your Mac or Windows PC”.
3. Click Google Cloud Print Windows Driver.

The Google Cloud Printer makes it easy to print to your cloud printers from any application on Windows, the same way you can from Chrome and Google Drive. Just install the printer, then print as you normally would from other applications.
